Silver Eagle Semi-Automatics

Offering Turkish-made shotguns since 2002, we offer our proprietary line of gas-operated semi-rugged, the Silver Eagle has it all; high-machining; a variety of popular features and Turkish walnut. All that and a two-year,

With its combination of quality, we think you'll agree that no other value. New for the 2012 model gas system, and two major settings and left, right or with every factory load features are standard on

are pleased to continue automatics. Light but quality parts and precise barrel lengths; beautiful iron-clad warranty.

good looks and unbelievably low price, gun on the market offers a comparable year are our SE121, with its next-generation enhancements: a shim kit permits eight pitch neutral cast, and dual pistons assure smooth cycling from light target to 3 inch magnum. These new both SE12 and SE20 models.

Silver Eagle Semi-Autos

SE121

The SE121's reduced-diameter heavy weight piston, variable gas chamber and forward venting ensure smooth functioning with the full range of factory loads, and increased durability for high-volume shooting.

SE12

SE20

Winner of the 2011 FL State Sporting Clays Championship, sub-gauge!

Receiver: High strength Aluminum Alloy; hard black chrome finish

Barrels: CNC machined solid rod C4140 steel, hard chrome plated; ventilated rib or adjustable rear and high-visibility front (slug / home defense barrel)

Action: Dual port gas operated

Stock: Turkish Walnut with gloss finish or black synthetic (Realtree and Mossy Oak patterns available for large orders. Sling swivels optional on all models.

Features: 3" magnum chamber; reliably ejects full range of factory ammunition; soft rubber ventilated recoil pad; 4+1 shell capacity. Combo version ships with 28" / 5 choke tubes and 20" slug / home defense barrel

Silver Eagle Semi-Autos

Our exclusive Silver Eagle line of semi-autos represents a unique combination of quality, good looks, innovative features and affordable price. Stocked with high-quality Turkish walnut (the guns in this catalog are off-the-shelf, typical specimens) the Silver Eagle may be the first sub - \$400 gun that you won't feel compelled to hide in the closet. Thoughtful features like an external carrier latch and a technologically advanced gas system that cycles as reliably with light target loads as with 3" magnum shells make the Silver Eagle the complete package - a gun you can take anywhere.

Interchangeable pistons guarantee smooth cycling with all factory loads from light target to 3" magnum. New shim kit gives unprecedented adjustability of pitch and cast.

A carrier latch release is conveniently located on the trigger guard. (Allows bolt to lock open without de-cocking.)

Summary

Model no.	Gauge	Stock	Barrel (in)	LOP	Drop: comb-heel	Chokes supplied	Typical Weight	SRP
SE121	12	Walnut	26, 28	14.5	1.5 - 2.25†	C,IC,M,IM,F*	7lb 2oz	\$469
